Drug spending over income
Drug use
Share of users with a SUD
Income of users over average
Value of a statistical life
SUD share of the homeless
Homelessness
Food stamps over output
Recipients over eligible
Homeless aged 25 to 34
SMI share of the population
SMI share of the homeless
Abstinence, housed over homeless
Treatment take-up
Use, no weight on the child
Housing over expenditure
Wealth over output
Renters paying over half
Bottom half of earnings
Unemployment rate
Average labour income tax
Targeted moment (in the order of the parameter it is matched to)
100
